

Female-led, family-owned

From left to right: Managing Director Janie Brooks Heuck, Head Winemaker Claire Jarreau, General Manager Jen Cossey.

- The wine inside the bottle is Demeter Certified Biodynamic. Our wines have no manipulation of acid or sugar.
- All wines are made in small lots, keeping clones and vineyards separate until blending, ensuring we have all the necessary components to create fresh wines with great fruit and acidity.
- Our sustainability is reflected in our packaging: no capsules, bottle weight is in line with the price and quality of wine, and we use Diam corks.
- Brooks is participating in the pilot of Revino refillable bottles in Oregon, which will hopefully be nationwide in the coming years.
