

# Beyond Brooks

Beyond Brooks is a collaboration with artisan producers to bring you an intriguing, inspirational and educational experience. Meet the founders/CEOs of our partner companies, hear their stories and learn about the creation of their successful companies.

In addition, you will have exclusive access to the expertise of Master of Wine, Bree Stock, guiding you through the experience. Janie Heuck, Managing Director of Brooks, will be there to share her perspective.

Each pack will contain two bottles of Brooks wine curated specifically with the partner product in mind as well as items from the featured partner. The actual experience will bring us all together on a webinar.
